Fellowships

81 +

PhD student
completions

CEEP was established in 2008 and has become Australia's specialist environmental economics research centre, combining world-class research with practical policy and scientific advisory expertise.

Through collaborative research programs and applied projects, we work with government, industry and communities to support environmental planning and improve decision-making processes.

Our economists and policy experts help partners translate complex environmental challenges into clear, defensible and actionable outcomes.

Our areas of specialisation:

Biodiversity

Water

**Marine &
Coastal**

Land

Climate

What we do:

- Non-market valuation
- Benefit-cost analysis
- Bio-economic modelling
- Prioritisation & optimisation frameworks
- Risk & uncertainty analysis
- Policy evaluation
- Environmental markets
- Environmental economic accounting
- Community & stakeholder elicitation
- Survey design & engagement tools
- Decision support tools

Become a partner

We welcome opportunities to collaborate with government, industry, community groups and other research partners on research programs, applied projects and advisory roles.

INDUSTRY PARTNERS & CLIENTS

- Australian Government Departments (DCCEEW, DFAT, Parks Australia, Food Standards)
- WA Government Departments (DPLH, DWER, DEED, DTMI, DFES & DBCA)
- BHP Community & Alcoa Community
- Minderoo Foundation
- Forrest Research Foundation
- Stantec
- Local government and community partners

COLLABORATIVE RESEARCH

- National Environmental Science Program
 - Marine & Coastal Hub
 - Resilient Landscapes Hub
 - Threatened Species Recovery Hub
 - Northern Australia Hub
- ARC Industry Fellowships & Discovery Projects
- Cooperative Research Centres
 - Bushfire and Natural Hazards CRC
 - CRC for Water Sensitive Cities
- Resilient Ways
- WAMSI-WESTPORT Marine Science Program
- Better Oceans Program
- Our Marine Parks

SERVICES

- Applied research projects
- Scientific advisory services
- Consulting projects
- Stakeholder engagement & facilitation
- Training & professional development
